Subject Index

Abdominal circumference
  effect of amniotic fluid index on the accuracy of sonographic estimated fetal weight, 329
Absent septum pellucidum
  septo-optic dysplasia: a neurosonographic review, 479
  Accessory mitral valve (AMV)
  accessory mitral valve tissue causing mitral valve obstruction and left ventricular outflow tract obstruction in a young adult, 56
Adenomyosis
  adenomyosis: a novel approach using transvaginal power Doppler sonography, 267
Adult echocardiography (AE) test, 111, 205, 318, 382
  See also SDMS-JDMS CME tests
Agenesis of corpus callosum
  septo-optic dysplasia: a neurosonographic review, 479
Akinesia
  arthrogryposis multiplex congenita, 497
ALARA
  a guide to clinical safety, 455
Amniocentesis
  role of sonography in selective laser photocoagulation therapy for the treatment of severe twin-to-twin transfusion syndrome: a literature review, 207
Amniotic fluid index (AFI)
  effect of amniotic fluid index on the accuracy of sonographic estimated fetal weight, 329
Angiography
  common carotid artery occlusion: Doppler ultrasound findings in two patients, 502
Anomalous left coronary artery from the pulmonary artery (ALCAPA)
  anomalous left coronary artery from the pulmonary artery (ALCAPA), 142
Antibiotic therapy
  infective endocarditis, 192
Aortic valve replacement (AVR) complications
  postoperative aneurysmal fistula of sinus of valsalva dissecting through interventricular septum and communicating with coronary sinus: nonsurgical treatment with transcatheter coil embolization, 45
Arteriovenous malformation (AVM)
  medullary sponge kidney: an imaging study, 247
  pseudoaneurysm of the uterine arteries, 257
Arteritis
  sonographic evaluation of arteritis, 128
Artherosclerosis
  the thick and thin of it: what the carotid artery can tell us, 473
Arthrogryposis multiplex congenita (AMC), 497
Assisted living
  knowledge of breast self-examination and other determinants' relationship on the self-rated health of elderly women, 402
Atrial septal defect (ASD)
  pediatric echocardiography, 216
Axilla
  accuracy of sonography in detecting abnormal axillary lymph nodes when breast cancer is present, 297

Benign ovarian mass
  evaluation of the incidence of right-sided ovarian cystic teratoma visualized on sonograms, 336
Biparietal diameter
  effect of amniotic fluid index on the accuracy of sonographic estimated fetal weight, 329
Birth weight (BW)
  effect of amniotic fluid index on the accuracy of sonographic estimated fetal weight, 329
Branchial cysts
  branchial cleft cysts and other related anomalies, 137
Breast cancer
  accuracy of sonography in detecting abnormal axillary lymph nodes when breast cancer is present, 297
  breast cancer with isolated internal mammary lymph node metastasis, 487
  describing elderly women in assisted living's risk for breast cancer and participation in screening behaviors, 320
Breast self-examination
  knowledge of breast self-examination and other determinants' relationship on the self-rated health of elderly women, 402
Bubb, Karen, 4

Campomelic dysplasia, 343
Cardiac abscesses
  infective endocarditis, 192
Cardiac physics and instrumentation (CPI) test, 36
  See also SDMS-JDMS CME tests
Cardiomyopathy
  accessory mitral valve tissue causing mitral valve obstruction and left ventricular outflow tract obstruction in a young adult, 56
  adult echocardiography and Doppler, 91

Subject Index

Abdominal circumference
  effect of amniotic fluid index on the accuracy of sonographic estimated fetal weight, 329
Absent septum pellucidum
  septo-optic dysplasia: a neurosonographic review, 479
  Accessory mitral valve (AMV)
  accessory mitral valve tissue causing mitral valve obstruction and left ventricular outflow tract obstruction in a young adult, 56
Adenomyosis
  adenomyosis: a novel approach using transvaginal power Doppler sonography, 267
Adult echocardiography (AE) test, 111, 205, 318, 382

  a guide to clinical safety, 455
Amniocentesis
  role of sonography in selective laser photocoagulation therapy for the treatment of severe twin-to-twin transfusion syndrome: a literature review, 207
Amniotic fluid index (AFI)
  effect of amniotic fluid index on the accuracy of sonographic estimated fetal weight, 329
Angiography
  common carotid artery occlusion: Doppler ultrasound findings in two patients, 502
Anomalous left coronary artery from the pulmonary artery (ALCAPA)
  anomalous left coronary artery from the pulmonary artery (ALCAPA), 142
Antibiotic therapy
  infective endocarditis, 192
Aortic valve replacement (AVR) complications
  postoperative aneurysmal fistula of sinus of valsalva dissecting through interventricular septum and communicating with coronary sinus: nonsurgical treatment with transcatheter coil embolization, 45
Arteriovenous malformation (AVM)
  medullary sponge kidney: an imaging study, 247
  pseudoaneurysm of the uterine arteries, 257
Arteritis
  sonographic evaluation of arteritis, 128
Artherosclerosis
  the thick and thin of it: what the carotid artery can tell us, 473
Arthrogryposis multiplex congenita (AMC), 497
Assisted living
  knowledge of breast self-examination and other determinants' relationship on the self-rated health of elderly women, 402
Atrial septal defect (ASD)
  pediatric echocardiography, 216
Axilla
  accuracy of sonography in detecting abnormal axillary lymph nodes when breast cancer is present, 297

Benign ovarian mass
  evaluation of the incidence of right-sided ovarian cystic teratoma visualized on sonograms, 336
Biparietal diameter
  effect of amniotic fluid index on the accuracy of sonographic estimated fetal weight, 329
Birth weight (BW)
  effect of amniotic fluid index on the accuracy of sonographic estimated fetal weight, 329
Branchial cysts
  branchial cleft cysts and other related anomalies, 137
Breast cancer
  accuracy of sonography in detecting abnormal axillary lymph nodes when breast cancer is present, 297
  breast cancer with isolated internal mammary lymph node metastasis, 487
  describing elderly women in assisted living's risk for breast cancer and participation in screening behaviors, 320
Breast self-examination
  knowledge of breast self-examination and other determinants' relationship on the self-rated health of elderly women, 402
Bubb, Karen, 4

Campomelic dysplasia, 343
Cardiac abscesses
  infective endocarditis, 192
Cardiac physics and instrumentation (CPI) test, 36
  See also SDMS-JDMS CME tests
Cardiomyopathy
  accessory mitral valve tissue causing mitral valve obstruction and left ventricular outflow tract obstruction in a young adult, 56
  adult echocardiography and Doppler, 91

Cartoid arteries
common carotid artery occlusion: Doppler ultrasound findings in two patients, 502
the thick and thin of it: what the carotid artery can tell us, 473
Case studies
accessory mitral valve tissue causing mitral valve obstruction and left ventricular outflow tract obstruction in a young adult, 561
adenomyosis: a novel approach using transvaginal power Doppler sonography, 267
anomalous left coronary artery from the pulmonary artery (ALCAPA), 142
arthrogryposis multiplex congenita, 497
branchial cleft cysts and other related anomalies, 137
breast cancer with isolated internal mammary lymph node metastasis, 487
campomelic dysplasia, 343
common carotid artery occlusion: Doppler ultrasound findings in two patients, 502
diffuse neonatal hemangiomatosis, 350
first trimester ectopia cordis in a twin gestation, using 3D surface rendering and reconstruction, 413
incarcerated inguinal Richter's hernia with ischemic testis in a premature neonate: the diagnostic role of duplex sonography, 253
medullary sponge kidney: an imaging study, 247
papillary thyroid cancer: a classic example, 262
polyorchidism, 413
postoperative aneurysmal fistula of sinus of valsalva dissecting through interventricular septum and communicating with coronary sinus: nonsurgical treatment with transcatheter coil embolization, 45
pseudoaneurysm of the uterine arteries, 257
the role of intraoperative sonography in neurosurgery, 207
schistosomiasis, 424
sonographic evaluation of arteritis, 128
spermatic cord torsion in the neonate: a false negative by sonography, 243
tuberous sclerosis complex typical and atypical sonographic findings, 491
ureterocele with duplicated collecting system: an antenatal and postnatal sonographic comparison, 49
Cervical rotation
effects of cervical rotation on hemodynamics in vertebral arteries, 384
Cervical spondylosis
effects of cervical rotation on hemodynamics in vertebral arteries, 384
Chronic venous insufficiency
sonographic evaluation of chronic venous insufficiency in right heart failure, 238
Clinical breast examinations
describing elderly women in assisted living's risk for breast cancer and participation in screening behaviors, 320
Colovaginal fistulas
diagnosis of a colovaginal fistula with intravaginal sonography, 514
Common carotid artery occlusion
common carotid artery occlusion: Doppler ultrasound findings in two patients, 502
Complex congenital heart disease
pediatric echocardiography, 216
Congenital heart disease
anomalous left coronary artery from the pulmonary artery (ALCAPA), 142
See also Complex congenital heart disease
Congenital mesoblastic nephroma (CMN)
prenatal detection of congenital mesoblastic nephroma and its differentiation from Wilms tumor: a literature review, 113
Congestive heart failure
diffuse neonatal hemangiomatosis, 350
Contractures
arthrogryposis multiplex congenita, 497
Contraindications
transesophageal echocardiography, 309
Cross-contamination
sonographers and the fight against nosocomial infections: how are we doing? 7
Cutaneous
diffuse neonatal hemangiomatosis, 350

Dermoid
evaluation of the incidence of right-sided ovarian cystic teratoma visualized on sonograms, 336
Diagnostic sonography departments
stressors and employee retention in the diagnostic medical sonography department, 152
Doppler ultrasound
adenomyosis: a novel approach using transvaginal power Doppler sonography, 267
common carotid artery occlusion: Doppler ultrasound findings in two patients, 502
effects of cervical rotation on hemodynamics in vertebral arteries, 384
overview: why we do the things we do (in ultrasound), 17
quantitative echocardiography, 464
role of sonography in selective laser photocoagulation therapy for the treatment of severe

twin-to-twin transfusion syndrome: a literature review, 207
See also Ultrasound

Echocardiography
adult echocardiography and Doppler, 91
anomalous left coronary artery from the pulmonary artery (ALCAPA), 142
quantitative echocardiography, 464
stress echocardiography, 373
Ectopia cordis
first trimester ectopia cordis in a twin gestation, using 3D surface rendering and reconstruction, 420
Education
diploma and degree: a unique collaborative approach to sonographer education, 62
encouraging integrity and compassion through sonography education, 424
instructing sonographers for the future: it's not about me, 156
sonography clinical education: a sonographer's perspective, 273
See also Sonography, profession of
Elderly women
describing elderly women in assisted living's risk for breast cancer and participation in screening behaviors, 320
knowledge of breast self-examination and other determinants' relationship on the self-rated health of elderly women, 402
Embolization
medullary sponge kidney: an imaging study, 247
pseudoaneurysm of the uterine arteries, 257
Employee retention, in diagnostic sonography departments
stressors and employee retention in the diagnostic medical sonography department, 152
Endemic
schistosomiasis, 424
Endocarditis
adult echocardiography and Doppler, 91
infective endocarditis, 192
Endogenous
arthrogryposis multiplex congenita, 497
Estimated fetal weight (EFW)
effect of amniotic fluid index on the accuracy of sonographic estimated fetal weight, 329
Exercise stress echocardiography
stress echocardiography, 373
Exogenous
arthrogryposis multiplex congenita, 497

Femur length
the effect of amniotic fluid index on the accuracy of sonographic estimated fetal weight, 329
Four-dimensional sonography
3D and 4D sonography; history and theory, 392

Gestational trophoblastic disorder
partial hydatidiform mole: a triploid fetus, 509
Giant cell arteritis
sonographic evaluation of arteritis, 128
Gottesfeld, Kenneth R., 1

Harmonic band filtering
tissue harmonic imaging: a review, 183
Harmonic frequency
tissue harmonic imaging: a review, 183
Head circumference
effect of amniotic fluid index on the accuracy of sonographic estimated fetal weight, 329
Health care administration
importance of sonographers reporting work-related musculoskeletal injury: a qualitative review, 234
Heart failure
diffuse neonatal hemangiomatosis, 350
Hemangioma
diffuse neonatal hemangiomatosis, 350
Hemivertebrae
evaluation of hemivertebra and fetal ribs using 3D sonography, 1195
Hepatosplenomegaly
schistosomiasis, 424
Hooper, Cindy, 4
Human resources
importance of sonographers reporting work-related musculoskeletal injury: a qualitative review, 234
Hydatidiform
partial hydatidiform mole: a triploid fetus, 509
Hypertrophic cardiomyopathy
accessory mitral valve tissue causing mitral valve obstruction and left ventricular outflow tract obstruction in a young adult, 56
Hypoplasia
campomelic dysplasia, 343

Immunocompromised
sonographers and the fight against nosocomial infections: how are we doing? 7
Incarceration
incarcerated inguinal Richter's hernia with ischemic testis in a premature neonate: the diagnostic role of duplex sonography, 253

Indications
stress echocardiography, 373
transesophageal echocardiography, 309
Inguinal
incarcerated inguinal Richter's hernia with ischemic testis in a premature neonate: the diagnostic role of duplex sonography, 253
polyorchidism, 413
Instrumental activities of daily living
knowledge of breast self-examination and other determinants' relationship on the self-rated health of elderly women, 402
Instrumentation
overview: why we do the things we do (in ultrasound), 17
Internal mammary lymph node metastasis
breast cancer with isolated internal mammary lymph node metastasis, 487
Intimal medial thickening (IMT)
the thick and thin of it: what the carotid artery can tell us, 473
Intraoperative sonography
role of intraoperative sonography in neurosurgery, 148
See also Sonography
Intravaginal sonography
diagnosis of a colovaginal fistula with intravaginal sonography, 514
Involution
diffuse neonatal hemangiomatosis, 350

Katayama fever
schistosomiasis, 424
Kenneth R. Gotteseld Awards, 4

Laser coagulation
role of sonography in selective laser photocoagulation therapy for the treatment of severe twin-to-twin transfusion syndrome: a literature review, 207
Laterality
evaluation of the incidence of right-sided ovarian cystic teratoma visualized on sonograms, 336
Left ventricular function
adult echocardiography and Doppler, 91
Left ventricular outflow tract (LVOT)
accessory mitral valve tissue causing mitral valve obstruction and left ventricular outflow tract obstruction in a young adult, 56
Leiomyomata
adenomyosis: a novel approach using transvaginal power Doppler sonography, 267

Lymph nodes
accuracy of sonography in detecting abnormal axillary lymph nodes when breast cancer is present, 297
breast cancer with isolated internal mammary lymph node metastasis, 487

M-Mode measurements
quantitative echocardiography, 464
Madsen, Amelia Margaret Anne, 4
Magnetic resonance arteriogram (MRA)
sonographic evaluation of arteritis, 128
Malignancy
value of sonography in determining the nature of thyroid nodules: evaluation of the sonographic characteristics, 38
Mechanical index
a guide to clinical safety, 455
Medical checkups
describing elderly women in assisted living's risk for breast cancer and participation in screening behaviors, 320
Medical radiation sciences (MRSc) programs
diploma and degree: a unique collaborative approach to sonographer education, 62
Medullary sponge kidney (MSK)
medullary sponge kidney: an imaging study, 247
Mesonephric duct
polyorchidism, 413
Methicillin-resistant *Staphylococcus aureus* (MRSA)
sonographers and the fight against nosocomial infections: how are we doing? 7
Microcalcifications
papillary thyroid cancer: a classic example, 262
Micrognathia
campomelic dysplasia, 343
Microorganisms
infective endocarditis, 192
Monochorionic twins
role of sonography in selective laser photocoagulation therapy for the treatment of severe twin-to-twin transfusion syndrome: a literature review, 207
Musculoskeletal injuries (sonographers)
potential reduction in musculoskeletal injury in the nonscanning arm by using VoiceScan technology during sonographic examinations, 304

Neck masses
branchial cleft cysts and other related anomolies, 137
Neonates
incarcerated inguinal Richter's hernia with ischemic testis in a premature neonate: the diagnostic role of duplex sonography, 253

spermatic cord torsion in the neonate: a false negative by sonography, 243
Nephrectomy
prenatal detection of congenital mesoblastic nephroma and its differentiation from Wilms tumor: a literature review, 113
Neurosonography
septo-optic dysplasia: a neurosonographic review, 479
Neurosurgery
role of intraoperative sonography in neurosurgery, 1481
Nonlinear propagation
tissue harmonic imaging: a review, 183
Nosocomial infections
sonographers and the fight against nosocomial infections: how are we doing? 7

OB/GYN imaging
3D and 4D sonography; history and theory, 392
Obstetrics/gynecology (OB) test, 126, 214
See also SDMS-JDMS CME tests
Occlusion
sonographic evaluation of arteritis, 128
Output Display Standard
a guide to clinical safety, 455
Ovarian cystic teratoma
evaluation of the incidence of right-sided ovarian cystic teratoma visualized on sonograms, 336

Papillary thyroid cancer
papillary thyroid cancer: a classic example, 262
Partial mole
partial hydatidiform mole: a triploid fetus, 509
Patient preparation
transesophageal echocardiography, 309
Pediatric echocardiography (PE) test, 232
See also SDMS-JDMS CME tests
Pelvic organ prolapse
the pessary, a method for treating pelvic organ prolapse, 12
Pendergast, Lee Ann, 4
Pentalogy of Cantrell
first trimester ectopia cordis in a twin gestation, using 3D surface rendering and reconstruction, 420
Pessaries
the pessary, a method for treating pelvic organ prolapse, 12

Pharmacologic stress echocardiography
stress echocardiography, 373
Physics
overview: why we do the things we do (in ultrasound), 17
Pixels
3D and 4D sonography; history and theory, 392
Polyorchidism, 413
Power Doppler
adenomyosis: a novel approach using transvaginal power Doppler sonography, 267
See also Doppler ultrasound
Praziquantel
schistosomiasis, 424
Protocols for performance
stress echocardiography, 373
Psammoma bodies
papillary thyroid cancer: a classic example, 262
Pseudoaneurysm
medullary sponge kidney: an imaging study, 247
pseudoaneurysm of the uterine arteries, 257
Pulmonary hypoplasia
evaluation of hemivertebra and fetal ribs using 3D sonography, 119
Pulse phase inversion
tissue harmonic imaging: a review, 183

Quantitative echocardiography
quantitative echocardiography, 464

Renal function
ureterocele with duplicated collecting system: an antenatal and postnatal sonographic comparison, 49
Renal pathology
medullary sponge kidney: an imaging study, 247
Ribs
evaluation of hemivertebra and fetal ribs using 3D sonography, 119
Richter's hernia
incarcerated inguinal Richter's hernia with ischemic testis in a premature neonate: the diagnostic role of duplex sonography, 253
Right heart failure
sonographic evaluation of chronic venous insufficiency in right heart failure, 238

Sarcoma
the role of intraoperative sonography in neurosurgery, 148
Schistosomiasis
schistosomiasis, 424
Schizencephaly
septo-optic dysplasia: a neurosonographic review, 479
Scrotal sonography
spermatic cord torsion in the neonate: a false negative by sonography, 243

SDMS-JDMS CME tests
adult echocardiography (AE), 111, 205, 318, 382, 462
cardiac physics and instrumentation (CPI), 36
obstetrics/gynecology (OB), 126, 214
pediatric echocardiography (PE), 232
ultrasound physics and instrumentation (UPI), 190, 471
vascular technology (VT), 135
Segmental approach
pediatric echocardiography, 216
Self-rated health
knowledge of breast self-examination and other determinants' relationship on the self-rated health of elderly women, 402
Septo-optic dysplasia
septo-optic dysplasia: a neurosonographic review, 479
Sideness
evaluation of the incidence of right-sided ovarian cystic teratoma visualized on sonograms, 336
Sinus of Valsalva fistula
postoperative aneurysmal fistula of sinus of valsalva dissecting through interventricular septum and communicating with coronary sinus: nonsurgical treatment with transcatheter coil embolization, 45
Sonographer education
diploma and degree: a unique collaborative approach to sonographer education, 62
Sonography
ALCAPA: anomalous left coronary artery from the pulmonary artery (ALCAPA), 142
breast cancer: the accuracy of sonography in detecting abnormal axillary lymph nodes when breast cancer is present, 297
intraoperative Sonography: the role of intraoperative Sonography in neurosurgery, 148
intravaginal: the diagnosis of a colovaginal fistula with intravaginal sonography, 514
medullary sponge kidney (MSK): medullary sponge kidney: an imaging study, 247
neck masses: branchial cleft cysts and other related anomalies, 137
papillary thyroid cancer: papillary thyroid cancer: a classic example, 262
pessaries: the pessary, a method for treating pelvic organ prolapse, 126
prenatal diagnosis: prenatal diagnosis and prenatal detection of congenital mesoblastic nephroma and its differentiation from Wilms tumor: a literature review, 113
profession of: instructing sonographers for the future: it's not about me, 156
sonography clinical education: a sonographer's perspective, 273
stressors and employee retention in the diagnostic medical sonography department, 152
scrotal: spermatic cord torsion in the neonate: a false negative by sonography, 243
thyroid nodules: value of sonography in determining the nature of thyroid nodules: evaluation of the sonographic characteristics, 38
tuberous sclerosis complex (TSC): tuberous sclerosis complex: typical and atypical sonographic findings, 491
ureterocele: ureterocele with duplicated collecting system: an antenatal and postnatal sonographic comparison, 49
work-related disorders: importance of sonographers reporting work-related musculoskeletal injury: a qualitative review, 234
the potential reduction in musculoskeletal injury in the nonscanning arm by using VoiceScan technology during sonographic examinations, 304
SOX9 gene
campomelic dysplasia, 343
Spermatic cord torsion
spermatic cord torsion in the neonate: a false negative by sonography, 243
Stealth Navigation System
role of intraoperative sonography in neurosurgery, 148
Stroke
common carotid artery occlusion: Doppler ultrasound findings in two patients, 502

Takayasu's arteritis
sonographic evaluation of arteritis, 128
Testicles
spermatic cord torsion in the neonate: a false negative by sonography, 243
Thermal index
a guide to clinical safety, 455
Three-dimensional data set
3D and 4D sonography; history and theory, 392
Three-dimensional sonography
3D and 4D sonography; history and theory, 392
first trimester ectopia cordis in a twin gestation, using 3D surface rendering and reconstruction, 420
Three-dimensional ultrasound
adenomyosis: a novel approach using transvaginal power Doppler sonography, 267

evaluation of hemivertebra and fetal ribs using 3D sonography, 119
See also Ultrasound
Three-dimensional volume
3D and 4D sonography; history and theory, 392
Thyroid nodules
papillary thyroid cancer: a classic example, 262
value of sonography in determining the nature of thyroid nodules: evaluation of the sonographic characteristics, 38
Tissue harmonic imaging (THI)
tissue harmonic imaging: a review, 183
Transcatheter embolization
postoperative aneurysmal fistula of sinus of valsalva dissecting through interventricular septum and communicating with coronary sinus: nonsurgical treatment with transcatheter coil embolization, 45
Transesophageal echocardiography (TEE)
accessory mitral valve tissue causing mitral valve obstruction and left ventricular outflow tract obstruction in a young adult, 56
transesophageal echocardiography, 309
Tricuspid regurgitation
sonographic evaluation of chronic venous insufficiency in right heart failure, 238
Triploidy
partial hydatidiform mole: a triploid fetus, 509
Tuberous sclerosis complex (TSC)
tuberous sclerosis complex typical and atypical sonographic findings, 491
Twin-to-twin transfusion syndrome (TTTS)
the role of sonography in selective laser photocoagulation therapy for the treatment of severe twin-to-twin transfusion syndrome: a literature review, 207
Two-dimensional ultrasound
adenomyosis: a novel approach using transvaginal power Doppler sonography, 267
See also Ultrasound

Ultrasound
overview: why we do the things we do (in ultrasound), 17
2D ultrasound: adenomyosis: a novel approach using transvaginal power Doppler sonography, 267
3D ultrasound: adenomyosis: a novel approach using transvaginal power Doppler sonography, 267
evaluation of hemivertebra and fetal ribs using 3D sonography, 119
axilla: the accuracy of sonography in detecting abnormal axillary lymph nodes when breast cancer is present, 297
equipment: the potential reduction in musculoskeletal injury in the nonscanning arm by using VoiceScan technology during sonographic examinations, 304
estimated fetal weight (EFW): the effect of amniotic fluid index on the accuracy of sonographic estimated fetal weight, 329
TTTS: the role of sonography in selective laser photocoagulation therapy for the treatment of severe twin-to-twin transfusion syndrome: a literature review, 207
See also Doppler ultrasound
Ultrasound physics and instrumentation (UPI) test, 190, 400
See also SDMS-JDMS CME tests
Ureterocele
ureterocele with duplicated collecting system: an antenatal and postnatal sonographic comparison, 49

Vascular anastamoses
role of sonography in selective laser photocoagulation therapy for the treatment of severe twin-to-twin transfusion syndrome: a literature review, 207
Vascular technology (VT) test, 135
See also SDMS-JDMS CME tests
Vavlular heart disease
adult echocardiography and Doppler, 91
Vegetation
infective endocarditis, 192
Ventricular septal defect (VSD)
pediatric echocardiography, 216
Vertebral artery
effects of cervical rotation on hemodynamics in vertebral arteries, 384
Vertebrobasilar insufficiency
effects of cervical rotation on hemodynamics in vertebral arteries, 384
Visceral
diffuse neonatal hemangiomatosis, 350
VoiceScan
potential reduction in musculoskeletal injury in the nonscanning arm by using VoiceScan technology during sonographic examinations, 304
Voxels
3D and 4D sonography; history and theory, 392

Wall thickening
sonographic evaluation of arteritis, 128

Wilms tumor
prenatal detection of congenital mesoblastic nephroma and its differentiation from Wilms tumor: a literature review, 113
Wilson, Michelle, 4
Women
describing elderly women in assisted living's risk for breast cancer and participation in screening behaviors, 320
knowledge of breast self-examination and other determinants' relationship on the self-rated health of elderly women, 402
Work-related disorders (sonographers)
importance of sonographers reporting work-related musculoskeletal injury: a qualitative review, 234
potential reduction in musculoskeletal injury in the nonscanning arm by using VoiceScan technology during sonographic examinations, 304

Yin-yang appearance
medullary sponge kidney: an imaging study, 247
pseudoaneurysm of the uterine arteries, 257
